

MORE Statement of Belief

All members must subscribe to the following statement of belief:

1. The Bible is the written Word of God, and because it is inspired throughout, all its assertions are historically and scientifically true in the original autographs. To the student of nature this means that the account of origins in Genesis is a factual presentation of simple historical truths.
2. All basic types of living things, including man, were made by direct creative acts of God during the Creation Week described in Genesis. Whatever biological changes that occurred since Creation Week have accomplished only changes within the original created kinds.
3. The great flood described in Genesis, commonly referred to as the Noachian Flood, was an historic event worldwide in its extent and effect.
4. We are an organization of Christian men and women who accept Jesus Christ as our Lord and Savior. The account of the special creation of Adam and Eve as one man and one woman and their subsequent fall into sin is the basis for our belief in the necessity of a Savior for all mankind. Therefore, salvation can come only through accepting Jesus Christ as our Savior.

Statement of Young Earth Creation:

MORE is committed to the creation view that God's creative work was completed in six literal days in recent history and that the great flood which was worldwide in extent was the tool of God's judgment experienced in Noah's day.

Founded February 14, 2007

Founding members: Michael Oard, Perry Fishbaugh, Esther Fishbaugh, Paul Trey, Robert Armstrong and Mark Amunrud all of Bozeman or Belgrade, Montana.

More detailed information on MORE can be obtained at www.CreationScienceDefense.org or email at gethelp@CreationScienceDefense.com

MORE finances its field trips and conferences with dues from its members. All dues are annual and run a full calendar year starting in January. Additional costs may be charged for some field trips; non-members are welcome on field trips but must sign a waiver and will be charged \$10/trip.

Annual Dues Are:

Individual	\$15	_____
Couple	\$25	_____
Family	\$35	_____

Name _____

Address _____

Phone _____

Email _____

Montana's Origin Research Effort (MORE) is a group of individuals, both scientists and laymen, that have come together to learn about scientific support for six-day literal creation and the global flood of Noah's day. This group will conduct field trips to local and regional areas of geologic interest and will conduct one or more research projects to investigate issues of flood geology. MORE will also sponsor, plan and conduct creation science seminars open to the public that will disseminate current findings from the creation science community to the glory and magnification of God and His holy scriptures.
